

1:1 Specialist Tuition

Perfect for: Children aged 2-10 years who need an extra boost in all areas of development & behaviour support. My specialisms are in Early intervention strategies (Age 2-5 years), speech delay & empowering those with Neurodiverse conditions such as Autism, Dyslexia & ADHD.

- Each session is facilitated by an experienced SEN teacher (Judith Riddell) who has 17 years' experience of working with those with SEN & is widely experienced in many SEN strategies including using PECs, TEACCH, visual communication approaches and Makaton communication strategies. Judith uses a whole-child approach to empower children from an early age to develop a love of learning and resilience to over-come aspects of education they find hard.
- Each session provides a wide variety of activities to empower different aspects of development as well as communication strategies & flexibility of thought.
- Each session is different and unique, aiming to empower the child to learn to self-regulate their emotional & sensory needs as well as filling gaps in academic learning.
- Judith personalises each teaching session to the needs of the child and whenever possible also tries to provide a parent coaching style to share strategies to continue to use at home during homework activities.

Prices for Services available at Riddell Wood HQ: Full Price.

(A restricted number of sessions each year will be subsidised to empower parents via scholarship application – Term Time Only)
